[CODE] RED™

BLEED CONTROL

Major injuries mean every second counts.

KNIFE CRIME IS ON THE RISE

The police reported A 21% increase in the number of knife and offensive weapon offences from 37,706 in 2021 to 45,639 in 2022.The number of fatal stabbings in England and Wales is at its highest level since records began more than 76 years ago" ONS.

CURRENT UK TERRORISM THREAT LEVEL: SUBSTANTIAL – AN ATTACK IS LIKELY

In a terrorist attack, multiple casualties occur before counter terrorism police secure the scene for emergency medical care.

RECORD HIGH AMBULANCE RESPONSE TIMES...

The national standard sets out that all ambulance trusts must respond to Category 1 calls in 7 minutes, in 2023 this response time averaged 11 minutes.

Critical Injury Range

Major injuries at work are a CODE RED™ emergency. Be prepared with the right life-saving kit for your workplace.

Every workplace offers its own hazards. *Dependent on the risk level of the work environment, critical injuries can occur from machinery, vehicles, falls and falling debris. In any situation where a major injury occurs an* ***ambulance should be called immediately – but with major blood loss will it reach you on time?*** *With emergency service response times at an all-time high the injured person could suffer catastrophic blood loss and go into shock before help arrives.*

HIGH RISK WORK ENVIRONMENTS CAN INCLUDE:

Construction:	*Crush injuries, falling masonry, major injuries from construction equipment*
Factories:	*Major traumatic injury can occur from entanglement in machinery*
Tree surgery/ forestry:	*Falls, falling tree limbs and major trauma wounds from chain saws, axes*
Agricultural Workers:	*Working remotely increases the response time from emergency services. Wounds from farming equipment need immediate treatment to stop the bleed.*
Saw mills:	*Major risk of trauma from saw blades and flying debris and damaged equipment*
Company Vehicles:	*Auto accidents can cause major traumatic injuries that need immediate treatment*

Why YOU need a CODE RED™ PAcT Kit

PAcT Range
(Public Access Trauma Kit)

Major injuries are a CODE RED™ emergency. Be prepared with the right life-saving kit for your venue. Our new PAcT range is designed for venues of all sizes and location – indoor or outdoor.

Every venue where people gather needs a PAcT kit. *PAcT first Aid Kits kits were created by counter terrorism police and trauma specialists to help save lives in public places such as concert venues, sports grounds and public transport hubs.*

PAcT kits include equipment specially designed to treat major wounds and quickly stop blood loss. The contents were developed in response to national terrorist attacks (including the 2017 Manchester Arena attack) where multiple casualties suffered catastrophic injuries but insufficient equipment was available to stabilise their wounds. PAcT kits are designed for members of the public to access and use quickly and safely by members of the public before Emergency services arrive.

PAcT KIT CONTENTS:

- *4 Dressings, Trauma, Large*
- *4 Face Masks, Looped*
- *4 Glasses, Disposable*
- *4 Gloves, Pairs*
- *2 Guidance Leaflets*
- *2 Resuscitation Devices, with valves*
- *2 Shears*
- *2 Tourniquets*
- *2 Triangular Bandage*
