Transforming **plastic wrap** to ... paper

Leading Sustainable First Aid Innovation

Reliance Medical has led the industry in reducing virgin plastic use, pioneering sustainable first aid solutions including **Aura** and **Titan** first aid kit boxes; the first **100% recycled and recyclable** first aid kit boxes in the market.

RECYCLABLE
MADE FROM RECYCLED PAPER

Now, we are taking the next step...

Moving from Plastic Wrap to **Sustainable Paper Packaging**

We are transforming the contents of our first aid kits by replacing traditional plastic wrapping with sustainable, paper-based packaging. This shift significantly reduces plastic waste while maintaining the quality and reliability you can trust.

Better for the **Workplace.** Better for the **Planet.**

Previously Plastic-Wrapped Products

- ✗ Single-use plastic wrap
- ✗ Harder to recycle
- ✗ Greater environmental impact

New Paper-Wrapped Products

- ✓ Sustainable paper-based packaging
- ✓ Reduced plastic usage
- ✓ Lower environmental footprint

Here's a few examples of our new paper packaging...

A Sustainable Choice for the Modern Workplace.

Our new paper-wrapped first aid products are:

✓ **Sustainable** ✓ **Compact** ✓ **Easy to identify**
✓ **Clearly colour-coded** ✓ **Workplace compliant**
